

User can create an account with a non-existent date (31 February)

Opis

Preconditions: User is on the page: <http://www.automationpractice.pl/>

Steps to reproduce:

1. Click on *Sign in*.
2. Enter a valid email address.
3. Click on the *Create an account* button.
4. Select *Title*: Mrs.
5. Enter 'Anna' in the *First name* field.
6. Enter 'Novak' in the *Last name* field.
7. Enter 'pass321' in the *Password* field.
8. Select date of birth: Day: '31', Month: 'February', Year: '2000'
9. Check the *Sign up for our newsletter!* box.
10. Click on *Register*.

Expected result:

An error message is displayed:

'There is 1 error.'

1. Invalid date of birth.'

Actual result:

The message 'Your account has been created.' appears.

Environment:

- OS: Windows 11
- Browser: Chrome 138.0.7204.184
- Device: Laptop (Lenovo IdeaPad 81C7)
- Test environment: automationpractice.pl
